MEMORANDUM FOR: Deputy Director for Administration  
SUBJECT : Office of Personnel Report -- Week Ending  
                          26 September 1975

1. Economists: We reported previously that we hoped to receive a response from the Civil Service Commission concerning whether they would authorize EOD travel expenses for economists. After studying our paper which was submitted on 16 September, the CSC called last Friday, 19 September, to say that they were confused and thought we had only the specific job, "international economist." It was pointed out that our jobs run the entire gamut in the economist series except for labor economists. Specifically, we have general, financial, regional (area), industrial, international and agricultural economists. This is the first time in three years CSC has had a request to declare an entire series to be in short supply. They will have to survey other Government agencies, and therefore would make no prediction on how long it would be before we have an answer. OER was advised. (Previously reported at 8:30 Meeting.)

2. White House Ceremony: We were advised not to send employees to the arrival ceremony at the White House for President Lopez of Colombia, scheduled for Thursday, 25 September. The cancellation was the result of inclement weather.

3. State Asks for Help: The Associate Director of the Department of State Recreation Association has asked our EAA Coordinator for advice in setting up an exhibition similar to our "October Fair." Their previous attempts have not been successful and they are looking for new ideas to stimulate employee interest in their various club activities. Since our October Fair is now being planned and is scheduled for 20-24 October, the EAA Coordinator, Mr. [redacted] has extended an invitation to his State Department counterpart to visit our exhibition and see how our employee activities are demonstrated. (Previously reported at 8:30 Meeting.)

4. Special Advertising: An advertisement for an artist for the Office of Technical Service which ran in the Washington Post on 14 and 21 September has resulted in an unusually heavy response. We have processed 181 responses to date and the majority of them have been accompanied by bulky samples of their work. An initial review has at least convinced us that there is an abundance of available artist talent in the greater Washington, D. C. area.

5. Career Day: Arrangements have been made to take part in a Minority Career Day at the University of Michigan at Ann Arbor on 7 and 8 October. The invitation was extended by University placement officials who seemed delighted that CIA would agree to return to their campus for this event.

6. Regulation Change: We forwarded a request for a pen-and-ink change to [redacted] to change the representational allowance supplement per diem from \$18 to \$21 in accordance with the provisions of [redacted]
